

## HEALTH & SAFETY POLICY

Plymouth College of Art makes robust arrangements for Health, Safety & Wellbeing at the College which demonstrate a clear commitment from the Corporation and Principal.

The Corporation integrate Health and Safety into the Finance and General Purpose Committee.

The Principal has the overall responsibility for Health and Safety at the College.

The Vice Principal is delegated with the day to day responsibility for ensuring the policy is put into practice.

College Directors and Managers accept Health and Safety duties and responsibilities for keeping a safe working environment for operations under their control.

Everyone has an important part in creating and promoting a healthy College by having respect and value for their own safety and everyone around them.

Health and Safety arrangements are continually reviewed, to progressively improve standards of efficiency in College operations, as reflected in the context of the business plan.

The Health, Safety and Welfare Requirements of the educational funding organisations are acknowledged within the policy arrangements.

The full Health & Safety Policy can be found on the College Webpage
