

MASTERCLASS: INTRODUCTION TO 3D SCANNING AT FAB LAB PLYMOUTH

A masterclass introducing you to 3D photogrammetry scanning. This will allow you to experiment with 3 of our industry-level, in-house scanners, capturing found objects in a three dimensional virtual environment. Our FABLab technical demonstrators will also be on hand to teach you how to edit and sculpt your scans with Autodesk Meshmixer.

If you would like to book this workshop please do fill out our booking form and a member of our team will be in touch!
