

MASTERCLASS: OBJECTS AND THE STORIES THEY TELL

This masterclass is designed to introduce various approaches to sustainability.

Using a mixture of eco-friendly materials and processes to create your end design, you'll learn how to work and design more consciously. This workshop is relevant to any design related course, from fashion to interior design, costume or textiles.

If you would like to book this workshop please do fill out our booking form and a member of our team will be in touch!
